Sonnenberg Excavating had contacted supervisor Sonnenberg that the approach at 51115 W Wymer Lake RD was constructed in such a way that it would cause problems with snow plowing this winter. Supervisor Sonnenberg stated he contacted the owners of the property of the problem. It was noted that the owners of the property had not applied for an approach permit. It was brought up that there were two other approaches constructed in Hobart Township that had not applied for approach permits. The board reviewed the Access Approach Policy and determined these approached need to go follow the Access Approach Policy and apply for a permit. Clerk Berstler will draft a letter stating the boards position and send it to the property owners of the three approaches.

Supervisor Hoffmann stated that he talked Jay Herman about adding an awning over the north exit door at the townhall to address the issue with snow sliding off the roof and blocking the exit. Herman will be able to do the work this fall. Estimated cost is \$1,500. Herman will also address the issue of the screws in the roof that are backing out along with installing cleats to prevent snow from sliding off the roof. The board approved the work.

Supervisor Hoffmann stated that he inspected the Clemenson approach at 50488 East Lake 7 Rd and that the approach passed final inspection. Clerk Berstler will mail back the deposit.

Supervisor Hoffmann stated that Sonnenberg Excavating will begin work on the culvert at Rose Lake this week.

CDH-Vergas Fire Department will hold it annual budget meeting this month 2023 at the Fire Hall.

Since there was no further business to come before the Board, Chairman Hockett adjourned the meeting.
